

## Home Health Care with Dignity and Independence

Matrix Home Health Care Specialists provides licensed, comprehensive home health care services in Minnesota.

We're owned and operated by Karen Lawrence, a Registered Nurse with over 30 years of experience providing long-term health care.

At Matrix, we employ only the best, most qualified caregivers. We hold all of our team members to a high standard, including complete background checks, ongoing continuing education and years of successful experience as a caregiver.

Learn how Matrix can assist you with your health care needs

## ***Matrix RN Care Managers can help you identify goals and care options***

We work with you to develop a detailed care plan with the recommendation for treatment and care options.

- Matrix RN Care Managers assist in advocacy services and care coordination customized to each individual's needs and preferences.
- We coordinate multiple care providers and services, as well as manage diagnoses and various medications as needed.
- We collaborate with clients, families, and care providers to provide the best guidance and support.

***Matrix can be your advocate with your physician and other health professionals***

## **Benefits of Matrix Home Health Care Specialists**

- Our staff are highly trained experts in their field. Continuing education ensures that our Care Managers and Care Providers are up-to-date with advanced knowledge and skill in all areas of their practice.
- Matrix Home Health Care allows you to stay in your own home knowing you'll have assistance from a reliable professional who'll help you stay active and independent.
- Our Care Managers have designated partners who can respond should your regular Care Manager be unavailable.

The Care Manager is always available 24/7 for emergencies by phone during evening, weekend and holiday hours – 365 days a year.

## ***Quality Home Health Care from Matrix***

Matrix offers several levels of home health care, including:

- **Home Health Aide/Certified Nurse Assistant** – provides personal assistance with medications, dressing, grooming, bathing, exercise and mobility, homemaking, and socialization.
- **LPN (Licensed Practical Nurse)** – includes safe administration of medication, insulin assistance, dressing and wound care.
- **End of Life/Palliative Care** – our team delivers the highest quality of care to clients with advanced illnesses.

We aim to relieve suffering and improve quality of life for clients and their families to ensure a peaceful transition.

All services include individual assessment, care plan development and RN caregiver supervision.
